

Practicing *Sustainability* Bli Bli OSHC

Being Environmentally Responsible by:

- Using “Natural Found” materials for art & craft.
- Recycling food scraps for worms.
- Refraining from printing materials where possible, email documents etc to families & educators.
- Introducing a worm farm and compost bin.
- Using recycled or donated paper and materials for art & craft activities.
- Purchasing more sustainable equipment made of natural materials and fibres and purchasing less plastic and disposable equipment.
- Recycling items used in the centre.
- Promoting gardening and introducing more plants to our environment.

Saving Electricity by:

- Sweeping daily and vacuuming when required.
- Use air-con only when necessary, set at 24 deg. Utilise natural breeze when possible
- Use natural light & lamps when possible.
- Turn off lights during quiet activities in vacation care.
- Turn off appliances at the power point to avoid stand by power usage.

Saving Water by:

- Re-using water play water to hydrate plants.
- Teaching children the correct use of the split flush system.
- Half filling mop buckets.
- Drinking fountain is operated by a push button to minimise water waste.
- Half fill large dish washing sinks to avoid water waste.
